

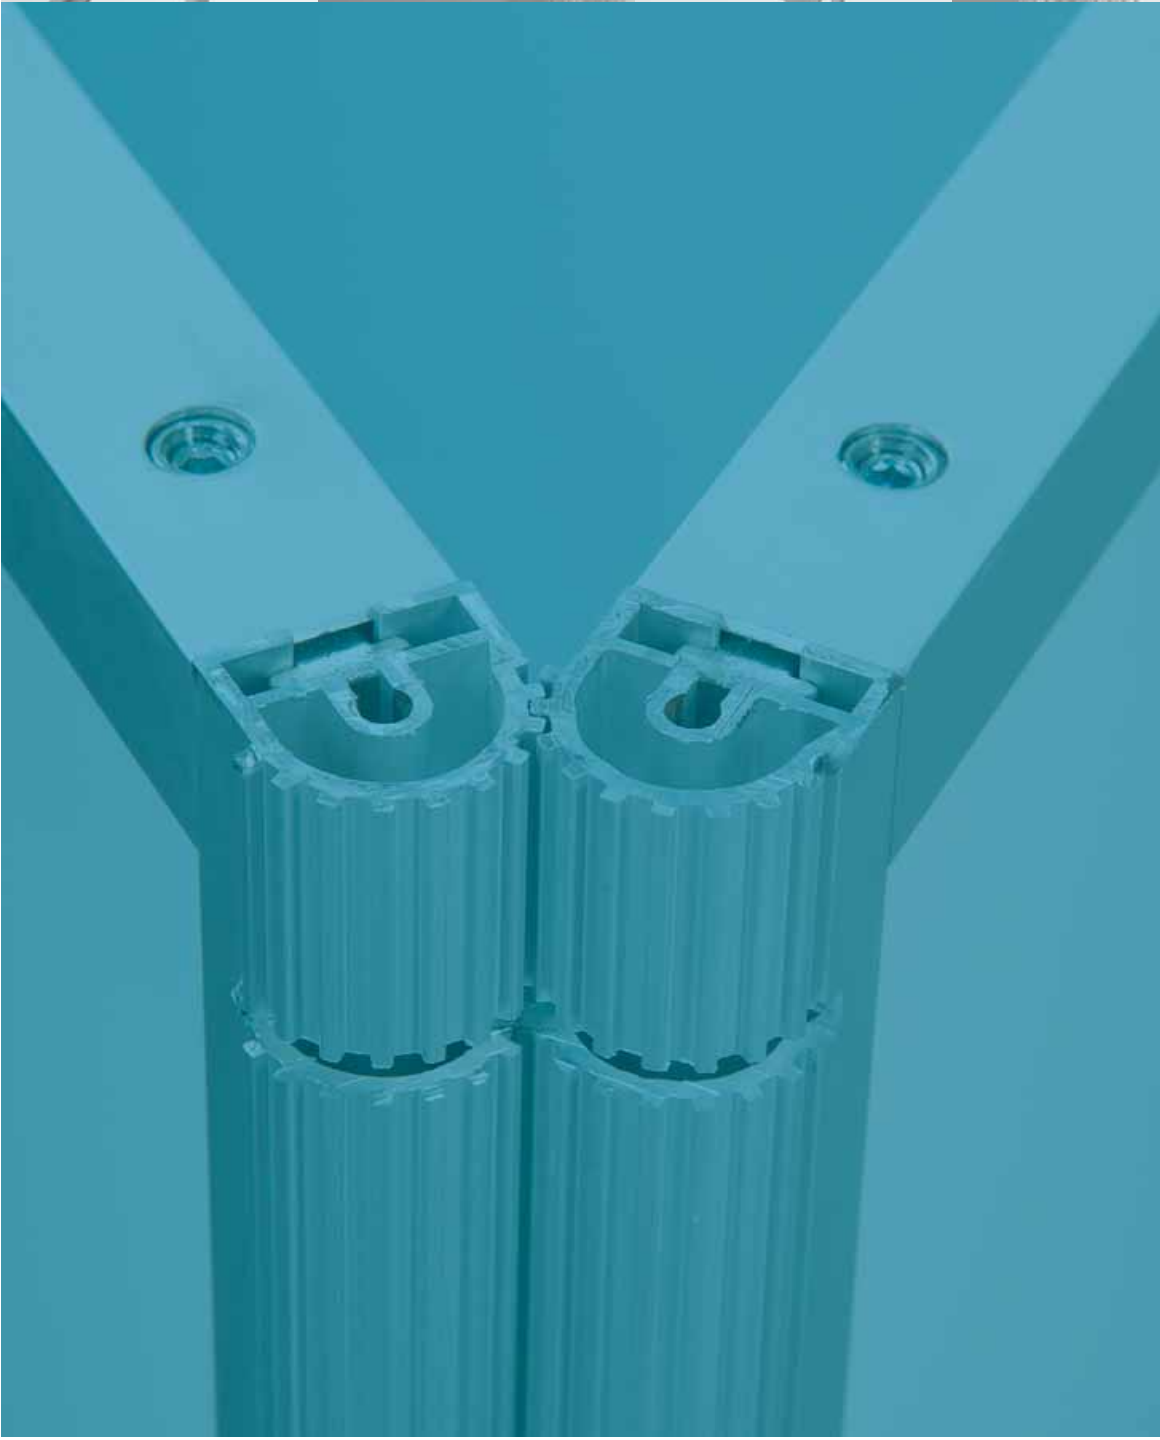

Exhibition Displays

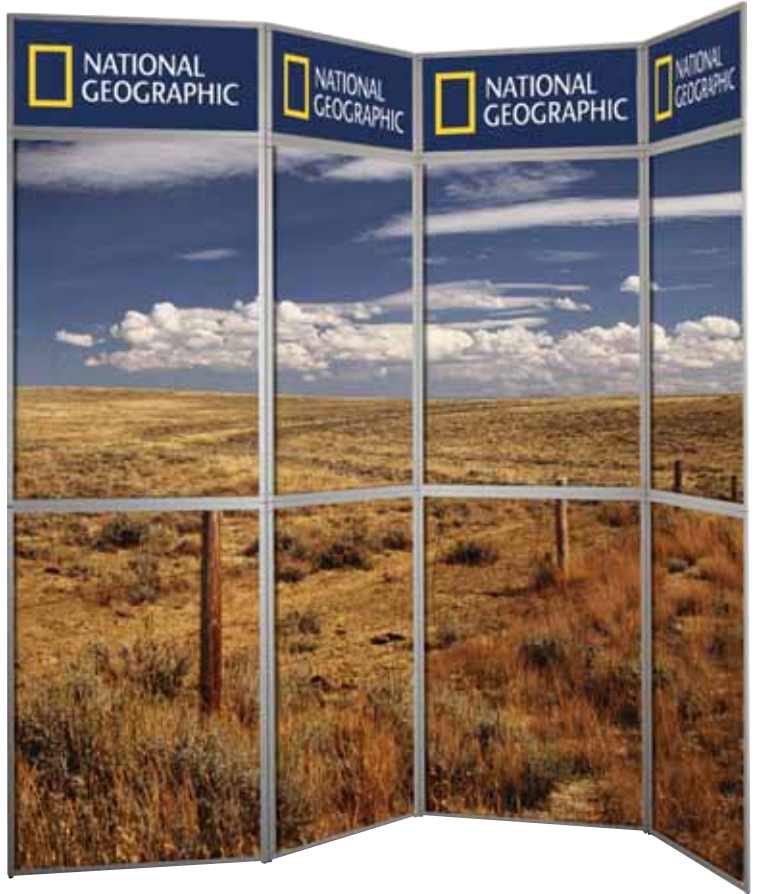

- Panset
- Pop-up
 - With Clips
 - With Magnetic

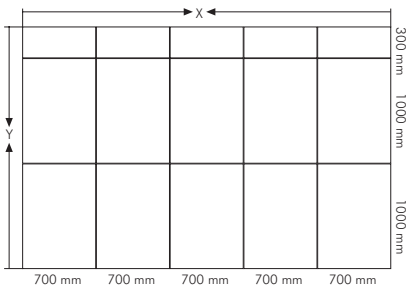

Panset exhibition system is a portable & friendly assembled panel construction. The durable framework of Panset can be positioned between 0-360°. The framework of the construction can be easily unassembled to allow a quick change of the panel inside.

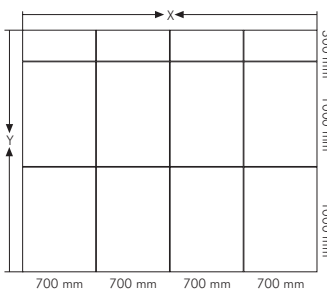

After the panels are assembled, due to the fitting of panels inside the construction, the visual area is 0,5 cm smaller on all sides.

Application of the inner panels

Open the top profiles by using an allen key. Take out the unprinted panels. After the application of the printings on the panels, slide them inside the construction by sliding through the channels on both sides. Fix the top profiles in the side channels as per the photo. Use the allen key to firm the positioning of profiles. Repeat the same process for all the panels.

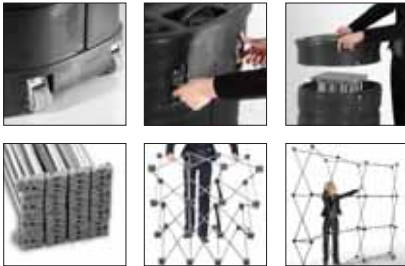

Assembly

Fix the header panels on the second floor panels first. On last step place in the bottom floor with the top part. Here is the complete Exhibition stand.

Pop-up with Clips

Pop-up stands are still the most popular standard display for large graphic displays. They are easy to transport, light weight, easy to Pop-up and can be packed down into a roto-moulded plastic carry bag for transportation. Pop-up displays have a variety of sizes 3x3, 3x4. Panels are fitted to create a round display and lights are available when requested.

Product is packed unasssembled.

Easy to Pop-up, no tool assembly.

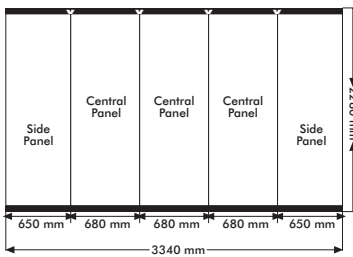

Lighting equipment is optional, not included in the original pack.
